BEEF...IT’S WHAT’S FOR LUNCH!

What better beef to serve for a school lunch than locally raised Sandhills Beef? In the spring of 2016 the Loup County School Board decided to start the Meal Booster Program in hopes to provide quality beef to the lunch program. That spring one beef was donated by Deane and Kristi Meeks for the 2016-17 school year. Funds to cover the costs of processing were also donated by several Loup County patrons. Last spring the program again received a beef from the Meeks’ and this fall Emmett Sortum, son of Mark and Sarah Sortum, donated his 4-H Marker Steer to the program. The 5th & 6th grade classes traveled to the Burwell to accept a beef donated by the Burwell Livestock Market, Gumb Auction & Reality and LG Photography. The cost of processing for these animals has not been covered yet. Many communities and schools across Nebraska have seen the benefits of implementing locally grown beef and pork into the school lunch program. If anyone is interested in donating beef or pork or would like to help in the cost of processing, please call the school at 942-6115. All meat used in the school lunch program must be processed by the USDA certified facility. Our goal is to have enough locally raised beef or pork to serve several meals per week for the entire school year and with this year’s beef donations we should be able to do that. Lunches that are serving the beef are starred on the menu so students and parents are aware. The students of LCPS would like to thank those who have donated beef and money to this program. Please consider becoming a Loup County Meal Booster.

Solar Eclipse...

August 21, 2017, was a school day like no other for Loup County’s students. At 11:00 a.m., classes ended, and everyone, students and faculty alike, boarded the buses that quickly headed south down U.S. Highway 183. They were going to Sargent’s football field where a lunch of hotdogs, chips, and cold beverages awaited them. However, on this particular day, lunch was not the event that everyone was anticipating. They had come to observe a natural phenomenon that none in attendance had ever experienced. It was the first total solar eclipse observable in the United States from coast to coast in 99 years.

“It was exciting,” said Jaden VanDiest, “because you only get to see it once in a lifetime.” Since Taylor was too far north to experience totality, Loup County Public School’s entire population went to Sargent to view the eclipse.

As the older students disembarked from the buses, they were each handed a special pair of glasses called Eclipse Shades®. These glasses are designed for safe, direct, solar viewing since looking at the sun without protective eyewear can cause severe eye damage. During the morning, elementary students had created face shields using paper plates; these helped their glasses fit and protect their eyes better.

First, everyone went through the line to pick up a lunch. Next, there was just enough time to clean up from lunch before phase one of the eclipse started at 11:32. During the three school days before the eclipse, teachers had told students what to expect, and everyone was closely watching, trying to identify the characteristics of each phase. Mr. Sandoz had described the phases of the eclipse to his students, too. He said there would be changes in shadows, possibly Shadow Bands (also called Shadow Snakes), Bailey’s Beads, a 360-degree sunset, the Diamond Ring, stars, the planets (Mars, Mercury, Jupiter, and Venus), as well as changes in the environment. Mr. Sandoz also explained that the far end of the ball park had 3 seconds more viewing time of totality than the actual football field, so the largest crowd of viewers was along the south fence line.

As time passed, students observed changes in the shapes of the sun and the shadows around them. The temperature began to drop, and the sun lost its intensity.

Madison Glidden and Grace Rodocker were part of a group of students studying the crescent-shaped patches of sunlight on the cement pad under the trees.

“That’s so cool!” exclaimed Micah Essman-Durant.

“They (the shapes on the cement) keep getting smaller,” Angel Estrada pointed out.

Finally, at 12:56 p.m., the sun slipped behind the moon, and for sixty seconds, there was no sunlight. Students were able to remove their Eclipse Shades® and view the skies in a world without sunlight in the middle of the day. The corona (the sun’s atmosphere) was viewable with the naked eye.
It does not take long for sixty seconds to elapse, and too soon it was time to put the protective glasses back on. The sun peeked out from the right side of the moon, and the Diamond Ring appeared.

“The Diamond Ring was so bright,” observed Weston Reineke. “It was amazing.”

“It (the Diamond Ring) was different,” said Abby Allen. “I have never seen anything like it.”

Mrs. Yarrington asked later, “Did you see the bats? They had come out during the darkness and were going back towards the school when it started getting light again.”

Slowly the day resumed its original brightness; the eclipse was over. Students removed their glasses, got back on the buses, and returned to Taylor to school and their classes.

“I honestly wasn’t expecting much from the eclipse and thought it was over-hyped,” commented Madison Guest, “but to my surprise, it was actually really amazing and almost angelic with the white (light) coming from the sides (of the moon).”

Because no other country besides the United States got to observe totality during this eclipse, it was called the Great American Eclipse. Thousands of Americans traveled to see it.

“It was probably the most historic thing I have witnessed with my eyes,” declared Raif Ruppert. For some, the 2017 total eclipse may be the only one they ever see. However, for many others, it has sparked the desire to see this phenomenon happen again. On Monday, April 8, 2024, those who are in a path from Texas to Maine will experience another total solar eclipse.

With determination, Mrs. Kristi Meeks says, “I am going to go see it.”

Community News

Please join us for an evening of food and great entertainment to support our Taylor Public Library. Our special guest speaker will be Charlotte Endorf presenting *The Life and Legacy of Annie Oakley*. This event will be held October 28th, 2017 at the Loup County Community Building. Sandwiches, salads and dessert will be served at 6:30pm followed by the speaker from Humanities Nebraska. Free will donations are the cost of this great event and the funds will be used to support our library. Hope to see you there!
Elementary News…

Preschool

Preschool has begun! We’ve jumped right in by practicing counting and sorting using story books, play dough and manipulatives. We are also mastering the rules and procedures at school by making good choices vs. poor choices. In Reading, we were learning strategies to become early readers, we were introduced to our first letter, the letter Mm and the sight words we, I, can. Our favorite activity right now is going outside because the weather is so beautiful! We also love to use centers to learn such as in Science center we pretended to make cookies, in Art center we painted using cookie cutters and in Block center we helped build a neighborhood. We are so excited to learn and grow this year!

1st & 2nd Grade

With school in full swing, the first and second graders have been working hard and learning a lot! Each week has brought new and exciting things to our day. During the first full week of school, we learned about the Solar Eclipse and experienced it with the rest of the school in Sargent. With the 16 year anniversary of 9/11, we took time in Social Studies to learn about that day and the heroes of our country. We have also been working on writing letters to send to soldiers to show our gratitude! The kids are having a fun time writing these and working on an art project to send with their letter. Our class has had a great start to the year, and we are excited to learn and grow as the year goes on!

3rd & 4th Grade

The first month of school has flown by in our classroom! I am enjoying our brand new science curriculum that includes exciting science videos and materials for the students to conduct a hands-on experiment nearly every week. I asked the students what their favorite thing has been about the school year so far, and this is what they said:

- The solar eclipse Hudson & Garek
- Science Ella
- Math Henry
- The pep rally Claira
- Homecoming week Karyme
- GoNoodle Lena
- Learning how to play lacrosse in P.E. Everett

Congratulations Jim! We appreciate everything you do for us at LCPS!
**High School News…**

*History Room*

**7th Grade Geography** - Students have been introduced to the five themes of geography (what geographers study), and the basic tools often used by geographers when learning about a new place on Earth. So far, they’ve applied these new skills to study our neighbor to the north, Canada. We’ll be expanding our studies greatly throughout the year as we look at other regions of the world.

**8th Grade U.S. History** – Students have learned about the first peoples to come to the Americas and settle (the Native Americans), and are currently studying the events that sparked early European early exploration.

**Civics (the study of government and citizenship)** - So far, we’ve discussed why we study civics, what it means to be a good citizen, how one becomes a citizen, and the changes that have occurred in the United States population according to information provided by the census.

**Modern Problems** - Our focus thus far has been on current events happening at three levels: local/state, national, and international. Through our discussions, we’ve learned a variety of new things such as what’s going on in North Korea and Afghanistan, who are U.S. Secretary of State and Treasury are (and what they actually do), and even some local geography such as the location of Cherry County or Ayr, Nebraska.

**World History** – Early on, we briefly reviewed early human origins, then skipped forward on the history timeline to about the 6th century AD. Here, we began our study of the rise of Islam in the Middle East, how it spread and became an extensive empire, and its lasting contributions Islam gave to the world.

**U.S. History II** – Students have looked at the impact western expansion had on the United States. Through our discussions, we learned how and why miners, ranchers, and farmers came to the mountain states and great plains region to settle. We also learned about the conflicts this created with the Native American groups already living in these regions.

**Psychology** – At first, we briefly learned about the history of psychology, and the various schools of thought that contributed to the modern study of behavior and cognition. Currently, we are learning about the impact that biology can have on behaviors and mental processes by studying neurons, the parts of the brain, the central and peripheral nervous system, and the endocrine system.
Loup County FFA update  By: Macy

**The Loup County FFA chapter competed in the Sargent Range Judging competition on September 7th. This competition is an area event in which nearby FFA chapters go to a pasture outside Sargent. Students then identify plants and their characteristics such as Life Span, Forage Value, Season of Growth, and Origin. They also distinguish ecological sites, evaluate the similarity index (value of Native Plants in that site), make range management recommendations, and answer other questions about range management.**

Junior Division (9th and 10th Grade) Results: Raif, Macy, and Abi L. placed in Top 10%. Placing in the top 50% were Alicia, Shelby, Cali, and Gray. Also competing were Abby A., Weston, Jack, and Jaden.

Senior Division (11th and 12th Grade) Results: Hunter placed in the top 10%. Brady and J.D. placed in the top 50%. Braden and Grace also competed.

**Loup County FFA held a canned food drive and collected over 200 items of food. A friendly competition was held between all elementary and high school classes with the Kindergarten, 3rd and 4th Grade, and the freshman class bringing in the most food items. These classes will get an ice cream party for bringing in the most items. 90 of these cans were given to the Heartland United Way food drive at Husker Harvest Days, the rest will be donated to the Prairie Rose Food Pantry in Taylor. If you would like to bring in cans for this food drive you can bring them to the office at the school by Oct. 6th.**

**On September 13th the FFA chapter went to Grand Island and visited Husker Harvest Days. Students learned about new advancements in farm equipment, innovative farming techniques, and new technology that makes farming easier and more efficient. Students also learned about college and career opportunities these companies offer. Husker Harvest Days also showcases lawn mowers, welding equipment, new houses, buildings, art, and more. This year was the 40th year of Husker Harvest Days and they brought back two 40 year old combines to pick corn with the new combines, allowing students to see the changes that have occurred over 4 decades.**

**Next up for Loup County FFA is District Range in Ord, State Range in Ogallala, and Old West Regional in Valentine.**
**Counselor’s Corner**

**$529 COLLEGE SAVINGS DRAWING FOR 6TH-8TH GRADE**

EducationQuest is partnering with the NEST 529 College Savings Plan to increase the number of accounts in which middle school students are the beneficiaries. Families who already have a NEST 529 account - or set up a new one by May 31, 2018 - can enter a drawing to win a $529 deposit into their account. Eighteen winners will be selected. Click here for the entry form and rules: [https://fnni.allegiancetech.com/cgi-bin/qwebcorporate.dll?PSG6EX](https://fnni.allegiancetech.com/cgi-bin/qwebcorporate.dll?PSG6EX)

**Why is this important?** A 2017 IHEP study showed that children with college savings between $1 and $499 are three times more likely to attend college and four times more likely to graduate than those without any college savings.

**MY NEBRASKA BIG DREAMS**

NEST529 is giving away a $5,000 contribution into each of four NEST 529 College Savings accounts for a child 8 years old or younger. Entering is easy… Just fill out the entry form at [www.NEST529.com/NebraskaDreams](http://www.NEST529.com/NebraskaDreams) or send in an entry by October 16, 2017. As an added bonus, new NEST529 account owners can gain an additional entry by using promo code “NebraskaDreams” when opening an account

**SENIORS AND PARENTS!!**

FINANCIAL AID NIGHT, Wednesday October 11th at 7:00 pm in the Distance Learning room at Loup County Public Schools. This webinar is a great opportunity to learn what is new and how to apply for financial aid for college. After the program, there is an opportunity to ask questions. This is a great opportunity to help start working on financial aid.

**TEEN AUTUMN ART WORKSHOP**

On October 11th at 9:00 am Loup County High School Art Class will be traveling to Nebraska National Forest near Halsey. This is a hands on workshop where Students will be able to select 2 of the 4 workshops being offered. Four professional artists will share their knowledge and skills with the students. Watch for pictures of the workshop in next month’s news letter.

**SOPHOMORES- 2018 HOBY!**

This is a 3 days of fun, interactive leadership training, meeting state leaders and making new friends. Discover how personal, group, and societal leadership lead to social change. Return from the seminars with skills and inspiration to lead a change. Applications will be due December 5, 2017. For an application or more information see Mrs. Armbruster.

All STUDENTS

Celebrate the Spirit of Service: Youth Volunteers! Apply for a 2018 Prudential Spirit of Community Award! Students are making a difference through volunteer services! Help recognize these students by encouraging them to apply by November 7, 2017 at spirit.prudential.com and nassp.org/spirit. This award has a possible cash award and trip for a parent and student.

December 1, 2017 – **ILA DUNNE EDUCATIONAL SCHOLARSHIP** SPONSORED BY LOUP COUNTY EDUCATION ASSOCIATION - OPEN TO ANY GRADUATE OF Loup County Public School Taylor, NE, majoring in the field of education. Applicant must be a sophomore, junior or senior in a college or university. A student may apply for this scholarship twice. For more information and application, contact Mrs. Armbruster at LCPS (308) 942-6115.
Music Notes

Welcome to a new music schedule! This year the 7-12 Band and Choir students are working with a new time frame. The band students start at 7:45 and practice until 8:15 in the Loup County music room. Then at 8:15 the frizzy haired music teacher moves to the stage where she works from 8:15 until 8:45 with the choir students. This happens every day! This means that the traveling band students have to be on a bus headed to the host school at 7:30 in the morning.

That is the bad news. The great news is that the band practice time has increased 60 minutes a week and the choir has gained 90 minutes a week. The increased practice time has already paid off for the choir. By the end of the second full week of choir we could perform a song complete with harmony parts while only the accompaniment was played. That is a major wow factor for us.

The choir will need all the extra time as the 9th through 12th grade singers travel to Litchfield on October 23rd for the MNAC vocal clinic. This is a fairly close location, so if you have time in the late afternoon, feel free to drive over and hear the concert that the students present at the end of the day. More information will be coming home to parents when it is available.

CAN CAN YOU PLAY THE CAN CAN?

Parents are always accusing their children of playing “Trashy Music”. Well we are proud of the fact in the elementary. The school cooks have been graciously saving me all their large cans that once contained things such as veggies, fruits, and sauces. The older students decorated the cans and instantly created a versatile drum. Not only does it have a great surface on the bottom….. er I mean the top…… but the side ridges have a sound of their own. With the help of a resource called Kid Stix, students are learning how to read rhythm patterns and have fun with a recycling project. There are accompanying music tracks to make the experience even more fun. And since this was created be an elementary music teacher (we’re all a little nuts you know) the first experience was to a rousing version of Offenbachs’ famous song…. Can Can #4.
News from Title I...

Summer School 2017 began during the hottest days of July with the theme “The Great Outdoors and Beyond!” Recess often found students resting in the shade while enjoying a snow cone in a cup. They were a popular treat! All students entering Kindergarten through 7th grade at Loup County were invited to attend. Nineteen students attended all or part of Summer School 2017. Students learned about the Solar System and the movement of the Sun, moon, and Earth for the great eclipse in August. We also spent time learning about butterfly habitat with guest speaker, Amy Ritchie. She brought the students seeds to take home and plant to attract butterflies. Classroom time also found the students learning math by playing math games, brainstorming solutions to a problem (such as how to unlink yourself with a partner, after the teacher ties you together, and you aren’t allowed to untie the string) and other interesting games. Veteran summer school teachers Mrs. Schmuecker and Mrs. Wurst were joined by new teachers, Miss Henderson in Kindergarten and Miss Schaeffer in 1st and 2nd grades. It was a great way for students to meet these new teachers before the first day of school! Thanks so much to the parents who allowed their children to attend. We sure enjoyed having them!

Title I Family Reading and Math Night has been changed from Tuesday, November 14th to Tuesday, December 5th @ 6:30 p.m.

Meet the kids of Loup County Elementary

What is your favorite thing about school?

Learning—Ayden
Playing in the classroom—Emma
P.E.—Allyson

What is your favorite subject?
P.E. & Math—David
Reading—Emmett
Math—Ella

What is your favorite meal at school?
Chicken Patty—Lena
Mini Corndogs—Karyme
BBQ Chicken—Gracie

If you could change one thing about school what would it be?
Chocolate Fountain—Izzy
Making P.E. class longer—Garrett
Muffins for dessert at lunch—Alfred
